Reports

Principal's Report – Mr. S. reviewed the Parent Survey results. Less people took the survey this year but there was great growth in every area.

President's Report – Nothing specific to report.

Treasurer's Report – Still need to approve this year's budget at the end of the meeting. More money made a Creek Crawl this year.

K5 Teachers Spotlight - entire K5 team present this meeting. Discussed that K5 now gets specials and it is going well. Everyone is excited about this change! September was spent learning about the school day and how to be a student. The first field trip is coming up in October. Assessments were done and they are continuing to teach their students about what it means to be a leader and a community. Current class sizes are between 17-19 students.
